

Sulphuric Acid Decolourization

Preface	ix	References	14
Acid Colour	1	Patents	15
Source of Organic Material.....	1	Hydrogen Peroxide	23
Concentration of Sulphide Minerals	1	Properties	23
Platinum-Cobalt Scale	2	Handling	23
APHA 500	2	Decomposition.....	23
Testing	2	Organics.....	23
Nessler Tube	2	Transportation.....	24
Spectrophotometer.....	3	Storage Tanks	24
<i>Theory</i>	3	Passivation.....	24
<i>Absorption Spectrums</i>	4	Piping.....	27
Standards	5	Flexible Hose	27
ASTM D1209	5	Valves	27
ASTM D5386	5	Pumps	28
ISO 2211	5	Analytical Methods.....	28
ISO 6271-1	6	Interferences with Analytical Methods.....	28
ISO 6271-2	6	<i>Oxidizing Agent</i>	28
References	6	<i>Reducing Agent</i>	28
Treatment Methods	7	<i>Releases Oxygen</i>	28
Dual Drying Towers	7	Removing Interferences Due to Hydrogen Peroxide	28
78% Black Acid.....	7	<i>Catalase Enzyme</i>	28
93% Black Acid.....	7	<i>Elevated pH and Temperature</i>	28
System Comparison.....	8	<i>Chemical Neutralization</i>	28
Acid Heating	8	<i>Decomposition by Activated Carbon</i>	29
Activated Carbon.....	8	Safety Precautions	29
Bleaching.....	9	Hydrogen Peroxide Concentration (0.25 to 70 wt.%).....	29
Factors Affecting Bleaching	9	Hydrogen Peroxide Concentration (1 to 30 wt.%).....	29
<i>Type of Organic</i>	9	Hydrogen Peroxide Concentration (0.1 to 6.0 wt.%).....	30
<i>Acid Temperature</i>	9	Hydrogen Peroxide Concentration (0.1 to 50 mg/L)	31
<i>Other Impurities</i>	9	Hydrogen Peroxide Concentration (Cobalt – Bicarbonate) (0.02 to 0.2 mg/L)	33
<i>Oxidation Potential</i>	9	Hydrogen Peroxide Concentration (Peroxidase Enzyme) (0.02 to 0.2 mg/L).....	34
Nitric Acid	9	References	35
Potassium Permanganate	10	Appendix A – Sample Calculation	36
Ozone.....	10	Appendix B - Patents	40
<i>Ozone Generators</i>	10		
<i>Treatment Method</i>	10		
Hydrogen Peroxide	11		
<i>Mitsubishi Process</i>	11		
<i>Absorber Acid</i>	12		
Potassium Chlorate/Hydrogen Peroxide.....	12		
Peroxosulphuric Acid	13		
Active Intermediates	13
